

TIPS FOR TEACHERS ONGOING CHILD ASSESSMENT: OVERVIEW

THE BASICS

7 PLAN

Know what you want to assess:

Select skills that are important to children's learning

2 GATHER Collect enough information:

- · Use multiple methods
- Collect data across activities and settings
- · Collect data over time

3 ORGANIZE Select a system to organize assessment information about each child:

· Portfolios, notebooks, computer program

▲ UNDERSTAND AND INTERPRET

Review data regularly with teaching teams and families:

- How well are children progressing toward their learning goals?
- · Look for patterns and inconsistencies

ADJUST YOUR TEACHING

Use data to make decisions about instruction:

- · Continue what you are doing
- Provide more support
- · Provide more challenge
